

DESCRIPTION

Excellent adhesion to many substrates including brass, steel, aluminum, Kynar, painted surfaces and Galvalume.

PRODUCT INFORMATION SHEET

ADVANTAGES

- Solvent free and isocyanate free.
- Cures quickly even at low temperatures.
- Good Physical Properties - high tensile strength and excellent elongation.
- Excellent sag resistance.
- Warranted - 10 year material warranty.
- Available in 10.1 oz cartridges and 20 oz sausages.

NOTES

For application questions, please call 763-972-9441. See MSDS for additional product information.

75 AM Caulk Technical Data

Application Rate	NA
Application Temperature	-20°F to 150°F (air and substrate)
Application Method	Caulking gun
Drying Time (75°F and 50% RH)	Tack Free 1.0 hrs
Total Solids	100% by volume
Weight per Gallon	10.8 lbs
Sag (75°F)	Non Sagging
Elongation/Tensile Strength	225% ± 30% / 275 ± 30 psi
VOC	< 10 g/l
